## DETAILED ACTION

1. Amendment and response filed by applicants in Paper No. 6, dated De. 19, 2003 have been entered and considered carefully. Claim 21 has been canceled. Claims 18-20 stayed withdrawn as being drawn to the non-elected invention. Claims 1-17 are pending.

2. *Examiner's Amendment*

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 18-20 being drawn to the non-elected invention, *without* traverse, are hereby canceled without prejudice against applicants' filing of divisional applications.

3. *Reason for Allowance*

The following is an examiner's statement of reasons for allowance:

Applicants have canceled claim 21 and amended claims 8 and 17 to obviate the 112 issues.

The prior art of record by Dueker et al. Biosis 1992:31936, Liske et al. Biosis 1998 :216584, Burdette et al. Biosis 2003 :26424, Burdette et al. Biosis 2003 :483768, CN119289, CN1221626, JP-09-031094 evidenced that the current process of extracting cimicifuga plants employed alcohols or water with elevated temperature. Zou et al. CA 123 :2060 provided information that low pH and high salts are beneficial in the tissue grinding process to avoid oxidation of phenolic compounds i.e. salts of cimicifuga, no motivation was provided that such low pH and high salts should be conducted in the specific sequential manner as claimed. Claims 1-17 as now amended are allowed.

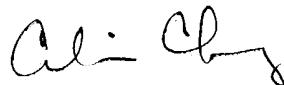

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
